

FASTEST GROWING & MOST UP-TO-DATE

Database of Charitable Donations in the Industry

A prospect's past giving is a great indicator of their future giving. But if you're trying to determine who they gave to and how much they gave, you could be coming up short. With more of the donations data you need, VeriGift will help your nonprofit make a more educated ask and be on your way to raising more major gifts.

Fastest Growing & Most Up-to-Date

Over 2 million records added every month, that's double the other guys.

Political Giving Helps you Predict Charitable Giving

The only database of charitable donations that also shows your prospect's US and Canadian political contributions.

Confidence that the Data is Accurate

Every record is linked to its original source so you can quickly verify it.

Know What Causes Your Prospect Supports

Access to US and Canadian private foundations and public charities information.

FASTEST GROWING & MOST UP-TO-DATE

Database of Charitable Donations in the Industry

DATASET	U.S. PROVIDER	CANADIAN PROVIDER	DESCRIPTION
Charitable Giving History			The fastest growing and most up-to-date database of individual, corporate, and foundation charitable gifts in the industry. Records are linked to the original source for easy verification.
US & Canadian Public Charities & Private Foundations			GuideStar data is the most comprehensive source of US private foundation and public charity information in the industry. Research board, officer, trustee, employee information, and 990 forms to better understand your prospect's affinity.
Political Giving History			Political giving can be a key indicator of philanthropic inclination. Search US Federal Election Commission records and Canadian Federal Contribution Records.

“iWave’s VeriGift dataset is a huge help in determining the capacity of funders and saves a lot of the guesswork that comes with major gifts fundraising.”

Jeremy Douglas
Associate Director, Leadership Giving

YOU'RE IN GOOD COMPANY WITH iWAVE

Since 1991, iWave Information Systems has been developing software solutions that empower nonprofit organizations to raise more major gifts, faster. We compile the best wealth and charitable donations data in the industry and package it in easy to use tools that help prospect researchers and fundraisers determine who to ask, how much to ask for, and when to ask. Better data. Smarter research. More gifts. iWave
