

iWave Dashboards

Deep Data Exploration and Analytics Made Easy

Embracing data visualization doesn't have to be complicated or inaccessible. iWave's Dashboards enable you to explore, analyze, and visualize fundraising data without the use of complex queries or pivot tables.

Better Prospecting

Build your pipeline and refine your prospecting strategy using interactive elements.

Tell a Story with Data

Use data visualization to convey important information and insights.

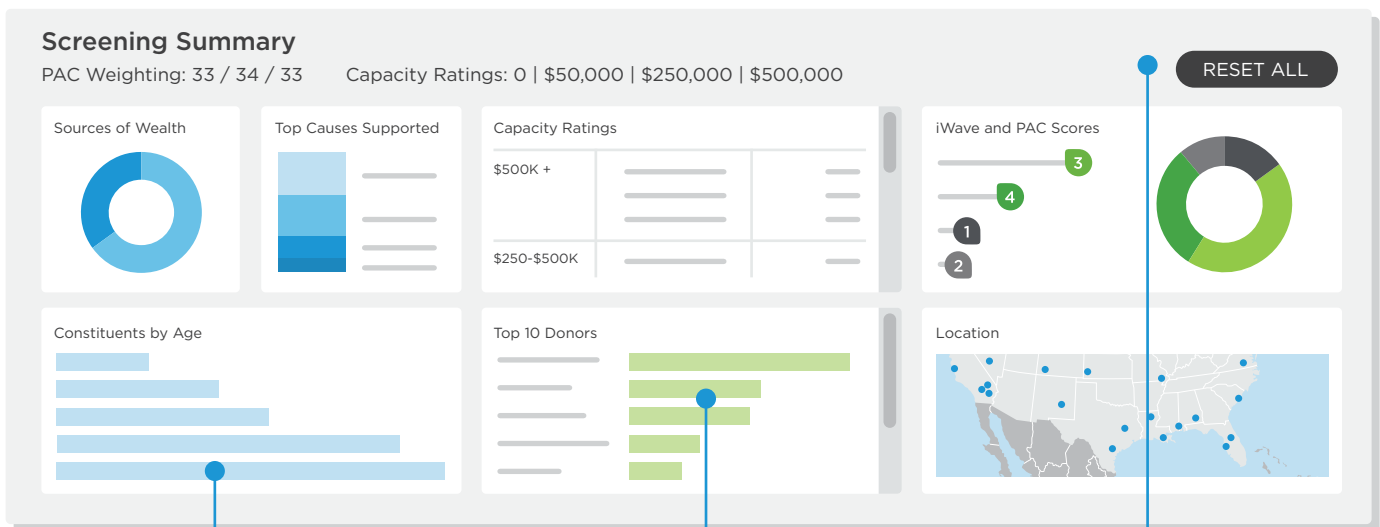

Analytics Made Easy

So easy, anyone can use it regardless of their technical background.

A Picture is Worth a Thousand Data Points

Navigate vast amounts of data and make operational and strategic decisions at a glance.

Metrics, charts, and extensive data are all in one place so you can identify trends and gain actionable insights.

Powered by Tableau, iWave's Dashboards are fueled by billions of fundraising intelligence data points and your donor profiles.

Easily filter and interact with any visualization to answer questions.

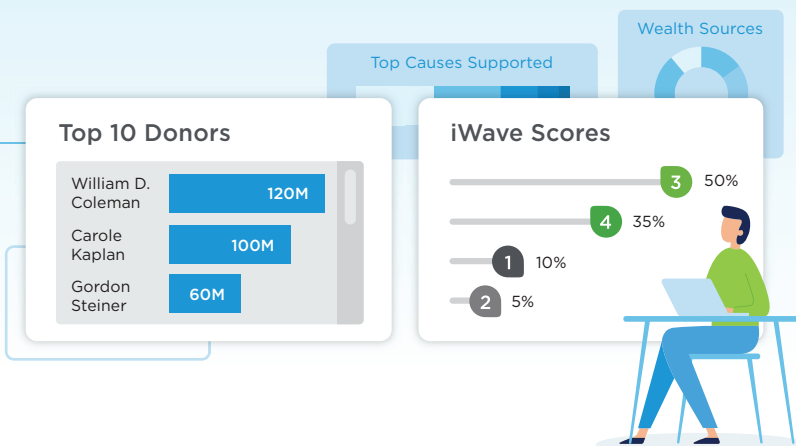

Visual Analytics Purpose-Built for Nonprofit Teams

Whether you're looking to prioritize prospects based on multiple data attributes or deep dive into your donor profiles, Dashboards can provide actionable insights that will help you raise more donations. And because Dashboards condense and organize massive amounts of data into a straightforward overview, aligning with your organization's leadership and fundraising teams is easier than ever.

SCREENING DASHBOARD

Analyze your screening project results by accessing and interacting with summary analytics such as top donors, score ratings, sources of wealth, and more.

PROFILES DASHBOARD

Get a quick snapshot of all your donor profiles and view a summary of biographical information, score ratings, geography, and more.

AND MORE DASHBOARDS COMING SOON!
